RUSHING WATERS STOP ALL TRAINS

Service in Nebraska Paralyzed by Impossible When Throat Cutting

Grand Rapids, Mich., March 10.— The Grand river is still rising at this point. It is flooding the boller rooms point. It is flooding the boiler rooms of river bank factories and forcing the plants to shut down. A number of residences on the west side are isolated and boats are running now where the streets were passable yesterday morning. The highest water mark has not yet been reached but may be soon if the ice gorge at Iona breaks or if a threatened rain proves heavy. Reports from Iona say the water has risen nine inches there since last night and was still rising.

A signal flashed from Austin to Poberts and the latter moved the previous question. This was ordered and dibate was shut off with three or four members trying to secure recognition, and Wilson protesting.

In voting, Morris declared that the bill was thirty-five pages long, and had been considered only forty-five minutes, when it was admitted to be full of defects. Because of the determination of the majority to choke off debate he voted in the negative.

"I am in sympathy with the spirit of this bill, although I would like to see some amendments," said Stoker, "but I don't like the gag rule and the attempt to crowd this thing through. Therefore, I vote No."

How John Contos Missed Sale of

garding Purity of Pond.

The board of health held a session last evening to consider the complaints of a number of ice dealers in regard to the ice put up by Mr. Shupe and which they claimed received impure drainage from the city cemetery. Mr. Shupe was present and was represented by an attorney. Considerable testimony was taken in his interest, while the ice dealers had very little evidence of a definite character.

The city engineer stated that the drainage from the city cemetery could not flow in the direction of Mr. Shupe's pond. Dr. Bich stated that he had made an analysis of the water and had found it pure. Mr. Shupe stated that he and his family were using the water from the pond. The board took the matter under consideration for a day or two, but the impression of the speciators was pretty general that the pond will not be condemned.

WARRANTS FOR SALOONMEN. Mrs. Corbett Continues Her Cam-

paign.

Warrants were served yesterday afternoon on most of the saloon proprietors of
Ogden who were charged with keeping
gambling houses. The warrants were issued on complaint of Mrs. W. J. Corbett,
who specifically charges about twentyfive of the saloonkeepers with maintaining slot machines in violation of the law. Omaha, Neb., March 10.—The St. Paul & Omaha road has been unable to move a train on its Wakefield branch since last Saturday on account of washouts. Albert Kopler, a young farmer, was drowned near Osmond. He was driving across a bridge over which the water was running. The horses jumped off the bridge and the driver and both horses were drowned.

President Burt of the Union Pacific, Sperintendent of Transportation Buckingham and fifty linemen and telegraph operators went west today to open that line. All Union Pacific trains
